- Graphics Designing
- Search Engine Optimization
- Analytics , Marketing
- Social Media Handling
- Shopify, WordPress, Wix
- Microsoft Office

Familiar

Experience

April 2025 - (Currently Working)

ZephTech Digital as a **Development Lead**

- Leading a team of 5 talented individuals—including UI/UX designers, frontend developers, and backend developers—I ensure that every project runs smoothly from concept to execution. With a strong focus on collaboration and efficiency, I've fostered an open and cooperative work environment where innovation thrives. Deadlines are never a challenge for us —thanks to strategic planning and seamless teamwork, we don't just meet them; we deliver ahead of time. Over the course of my journey here, I have successfully built and launched 30+ in-house brands, turning ideas into impactful digital experiences with a commitment to quality and excellence.

April 2024 - March 2025

Pacific Solutions as a **Sr. Web Developer**

- I have successfully established 38+ custom in-house brands using PHP. My primary goal is to optimize website rankings and enhance user experience. I have implemented a range of e-commerce solutions that have resulted in increased sales and revenue. Alongside my technical expertise, I possess a comprehensive understanding of marketing and branding strategies.

My brand creation expertise spans several niches, including:

- Affiliate Marketing Websites
- E-commerce Websites
- Creative Agency Websites
- eBook Websites
- Landing Pages for PPC and more...

Activities / Extra's

- Fast Typing
- Development
- UI/UX
- Freelancing
- Content Creation
- Social Media Management
- Continuous Learning
- Community Involvement
- Digital Marketing

Jan 2024 - April 2024

Global Trade Nest as a Web Developer

- Established multiple internal brands, including fully animated, Lead Generation, Integrations and SEO-friendly websites built using Core PHP.
- Created WordPress websites for clients, focusing on informative niche and e-commerce sites using Woo Commerce and Shopify.
- Built CMS websites using platforms such as Shopify, Framer, Square Space, and Webflow.
- Gained experience in project management, collaboration, and effective communication.

Oct 2022 - April 2023

The Providers Solutions as a Graphics & Web Designer

- Created numerous UI/UX designs and successfully transformed them into fully functional websites using HTML, CSS, and JavaScript. These websites were visually appealing, user-friendly, and optimized for optimal performance.
- Conducted SEO audits to identify areas of improvement and implemented website optimization techniques. I focused on enhancing website performance, improving search engine visibility, and boosting organic traffic. Additionally, I performed website testing and quality assurance to ensure a seamless user experience and eliminate any potential issues.
- Oversaw monthly graphic design projects, creating captivating visuals for social media. Analyzed keywords and strategies to boost social media engagement and reach.
